Last week, your homework was to find people who help others or who are doing something to make a better world. What do they do, and how do they help others? I believe you have some ideas. Please share them with everyone.</p>
 Anna	<p>Farmers work for others every day. People need food to eat, and good food helps us to stay healthy. Farmers grow lots of rice, and most of the fruits and vegetables that people eat. Some of them raise animals so that we can have milk, meat, and eggs. We can't live without farmers.</p>
 Fred	<p>Scientists study many things to make the world better. They try to solve problems in many ways. For example, they study about animals, food, medicine, robots, and climate change. They invent things we need. There won't be a better world without science. So, I am studying very hard to be a scientist.</p>
 Madoka	<p>I think teaching helps people. Education is very important for our lives. For example, if you want to be a doctor in the future, you should study science in school. Without your teachers, I think it is hard for you to realize your dream. Also, there are many volunteer teachers around the world. My sister teaches science to people in Africa as a volunteer teacher.</p>
 Toshio	<p>Doctors always help people. When we are sick or have an accident, we go to the hospital. Doctors can save our lives, help us to get better, and help us to stay healthy. However, there are not enough doctors here in Japan today. There are only 2.3 doctors for every 1,000 people. In the future, I want to be a doctor to help many people.</p>
 Mr. Stone	<p>Thank you, everyone. I enjoyed listening to all of your ideas. There are many (A) that people do to help others around the world. I think hard work can help to make the world better. I hope you continue to work hard in the future.</p>
