I'm going to talk about three books. You need to read one of them during Book Week. The first book is "Zoo Animals". It tells you a lot of things about animals in the zoo, for example, what they eat and where they stay during the night. The second book is "Using Math". This book tells you that it is interesting to use math in your life and how you can enjoy using it. The third book is "Let's Learn about Basketball". This book tells you when basketball was first played in the U.S. It also tells you how it has become a sport that many people in the world love today. After Book Week, write a report about the things you've learned from the book and bring it to my class on October 1. I hope you enjoy Book Week.
